

February 28, 1978

To Whom It May Concern:

Dan Coopridier was employed as a Project Scheduler in the Denver office of Zimpro, Inc. from March 1977 until it's closing in March 1978.

As Project Scheduler, Dan was responsible for the creation, maintenance and analysis of completely integrated computer schedules on all active Denver office projects. He carried out his duties with enthusiasm, and his thoroughness and competence earned him the respect of all who worked with him.

In addition to his primary duties as Project Scheduler, Dan actively assisted in the investigation and implementation of a variety of Project Management software, and specific recommendations concerning hardware.

Dan's natural managerial abilities, coupled with his enthusiasm and willingness to learn make him a valuable asset to any company, and I do not hesitate to recommend him in any capacity.

Respectfully,

Don L. Loveday
Manager of Project Control
